Subject: Re Taxi Working Group

Dear Mr. Lopez,

The objective of the hackney cab regulations of the City of Cambridge should be to make cab rides as plentiful, easy to get, and cheap as possible so that Cambridge residents are encouraged to give up owning cars and parking them in the City.

A City in which it is cheaper to hire a ride rather than own a car, will be a healthier, more livable and more sustainable City.

All the best,
David Prum
